

REMARKS

Claims 2 and 21-28 are in this application and is presented for reconsideration. The Office Advisory issued on February 15, 2006 states that the Amendment submitted on February 1, 2006 will be entered, but the Amendment does not place the Application in condition for allowance, because the Yoshida reference can be used in a bicycle. Applicant has cancelled claims 13-20 and added new claims 21-28 which further define the present invention over the prior art of record. Therefore, it is applicant's position that the Yoshida' 340 reference neither anticipates nor suggests the present invention as claimed in new claims 21-28.

As the prior art fails to suggest the combination of features as claimed, Applicant respectfully requests that the Examiner reconsider the rejection in view of the discussion above. Applicant respectfully or solicits allows of this application.

Favorable action is requested.

Respectfully submitted
for Applicant,
